

## Jury Selected As Fitzgerald Trial For Murder Opens

Victim Of Shooting Near Here Is Witness As Trial Starts

A jury of nine men and three women has been selected in the Nevada County Superior Court to hear evidence in the murder trial of Stanley William Fitzgerald, 39, Oakland.

Taking of testimony started Tuesday.

The first witness was Milton Young, who testified he was shot in the hand and hip by Fitzgerald after the latter robbed him.

Fitzgerald is accused of killing George Bonn and wounding Milton Young at Woodchopper Springs near Truckee August 3.

District Attorney Harold A. Berliner said he will present 20 or more witnesses. The trial is expected to require two weeks.

The defense attorney is Robert Fugazi of Truckee.

Fitzgerald was arrested in Portland, Oregon, three weeks after the slaying by federal bureau of investigation agents.

According to the police, Fitzgerald met Bonn and Young in a San Francisco saloon where the three decided to drive to Reno, Nevada. They stopped in Truckee, purchased a bottle of liquor and drove to Woodchopper Springs.

Young told officers that after they drank, Fitzgerald ordered Young and Bonn to hand over their money, approximately \$800, and remove their clothing. Young said a scuffle followed in which Bonn was killed and Young was wounded.

Fitzgerald also is accused of escaping from the Nevada County Jail last month and remaining a fugitive for five days before being recaptured.

## Parks Spokesman Favors High Road For Emerald Bay

Costs Of Routes Examined As Discussions Held Over Issue

SACRAMENTO — (CNS) — A spokesman for the division of beaches and parks said officials of the division were pleased with studies of possible all-year highway routes at Emerald Bay on Lake Tahoe.

The spokesman said estimated costs are nearly the same for routes that would bridge the bay or that would skirt the bay in a series of snow sheds and tunnels. This, he said, is a different story from the initial report issued in 1958 that said the upper route was not feasible.

The lower route would bisect D. L. Bliss and Emerald Bay State Parks.

The division of highways issued a report in November that said both upper and lower routes are feasible but that the upper route was more expensive.

Alternate low routes were estimated at \$5.7 million and \$5,965,000. Estimates for upper routes were \$7,485,000 and \$8,625,000.

The beaches and parks spokesman said the estimates for the lower routes do not include \$1 million for highway work that would be needed between Tallac Creek and Bay View Rest along the existing route.

The spokesman contended the expenditure would not be needed if the upper route was adopted.

The beaches and parks spokesman said the estimated \$600,000 for rights of way along the lower routes evidently didn't include the land in the two state parks. This land has been appraised at \$1,250,000.

These figures bring totals for lower route to \$8,965,000.

The spokesman said the lower route would run through two proposed campgrounds, one at Emerald Point and one between Emerald Point and existing campgrounds—both in D. L. Bliss State Park. He said the route would not hurt Emerald Bay State Park as much, although it would cut the park off from Lake Tahoe.

WALTER M. BARRETT

Although most shoppers in the area are loyal to their community and do their buying at home, there are still too many who are under the false impression that they can save money by shopping out of town. Our local communities have good stores, all well equipped to take care of the shopper in both service and fair prices. By patronizing these stores, the buyer is not only helping himself but is aiding materially in making his a better community. We do not hesitate to call upon the local merchant to support various civic and community functions and organizations but for one reason or another we forget that without our continued patronage these merchants would be hard pressed to extend this help. Why not adopt a policy of buying at home and learn the satisfaction of assisting in the growth and progress of your community? It is your home, so give it your support. It costs you nothing and it certainly is a big help to your area.

## Redistricting Of County Districts Goes Into Effect

No Material Change To Be Noted Until Election In Two Years

Redistricting of the five supervisorial districts of Nevada County became effective last Thursday with the county surveyor being instructed by the board of supervisors to draw up maps of the new boundaries.

Under the redistricting program the supervisors will represent voters as follows: First District, 2421; Second District, 3681; Third District, 2252; Fourth District, 2446 and the Fifth District, 1143.

The areas included in the first four districts will be changed materially although there will be no change in the fifth district which includes Truckee, Donner Lake, Soda Springs and Floriston.

There will be no change other than on paper until the 1962 election at which time election for supervisors in the third and fourth district will be held. At that time the newly redistricted political precincts will vote in their respective districts.

A group led by Douglas Ribble of Washington appeared before the board last Thursday in protest of the boundary descriptions were in error and that the redistricting therefore was invalid. They were advised that the supervisors had no jurisdiction and that errors could be challenged only in the superior court.

## Planning Boards To Hold Meetings On Airport Zoning

Identical Ordinances Are Proposed In Joint County Plan

Two public hearings, one in Placer and the other in Nevada County, have been scheduled to discuss proposed ordinances regulating the height of structures and other objects near the site of the Truckee-Tahoe Airport.

The Nevada County Planning Commission held the first hearing November 28 and has a second scheduled for December 12 at 8 p. m. in the supervisors chambers in the court house.

The Placer Planning Commission will hold its meeting December 23 at Auburn.

Both planning commissions are seeking a uniform ordinance and Directors Stewart Bryant of Placer County and Verne Jones of Nevada County are working closely to present identical ordinances to the respective boards of supervisors so there will be no conflict of interests.

The zoning ordinance, according to Bryant and Jones, is necessary to prevent hazards around the airport which will be located in both Placer and Nevada Counties.

Both groups are pretty well agreed on the terms of the ordinance. C. Edmunds, Truckee member of the planning commission said, but are concerned somewhat with a proposal to establish a public dumping area near the site. This, Edmunds said, may very well provide a hazard with smoke when the rubbish is being burned.

It is held by Edmunds and others that there is ample ground away from the airport area to provide for a suitable dumping ground for North Lake Tahoe and Truckee.

Both communities are faced with the necessity of securing adequate areas for dumping and disposing of rubbish and are working with the forest service and county agencies to provide this area.

The proposed zoning ordinance will not interfere with the flight of planes from the field.

Almost 250,000 pedestrians were killed or injured in

PROBLEMS AT LAKE  
ATTRACT ENGINEERS

Lake Tahoe's sewage disposal  
problems are attracting the atten-  
tion of leading consultant engi-  
neers of the Pacific coast and mid-  
west, according to a report made  
this week by Deane Seeger, execu-  
tive director of the Lake Tahoe  
Area Council.

Proposals to make a compre-  
hensive engineering feasibility  
study to determine solutions to  
the problem of protecting the  
world famous mountain lake area  
from sewage contamination have  
been filed to date by seven lead-  
ing firms specializing in sanitary  
engineering. Nine others have  
notified the council of their in-  
tent to submit proposals within  
the next two weeks.

Financed by a special fund grant  
to the Lake Tahoe Area Council  
from the Max C. Fleischmann  
Foundation of Nevada, the study  
will explore the feasibility of con-  
structing a lakewide system to col-  
lect, treat and export sewage  
wastes or effluent outside the  
Tahoe basin. Findings may include  
alternate anti-pollution measures  
that will assure permanent pro-  
tection to the purity of Lake Ta-  
hoe water.

The final report will also include  
the results of economic and legis-  
lative studies to permit the cre-  
ation of a bi-state operating ag-  
ency in the basin and support a  
sound long range financing plan  
for the undertaking.

All proposals are to be care-  
fully evaluated by a special review  
committee that will be named  
shortly by council president, B. E.  
Lowe of Reno.

Highway Patrol, said this week.

"Chances are, if you're a skier,  
you are also a driver, since most  
winter sports fans drive to recre-  
ation areas," he said. "Therefore  
it is only common sense to learn  
and accept the limitations of motor  
vehicle operation on snow and ice-  
covered roads."

"Snow driving demands slower  
speeds. Even if traffic stops com-  
pletely, be patient; don't pull out  
of line only to be confronted by a  
stream of traffic approaching from  
the opposite direction."

"Starting and stopping on snow  
and ice require special attention,"  
Lieut. Ledford said. "Starts  
should be slow, since rapid ac-  
celeration results in wheel spin-  
ning. Stops should be gentle, ac-  
complished by a soft but rapid  
pumping of the brake pedal. Hard,  
fast stops frequently result in  
skids."

"It takes from three to 12 times  
as far to stop on icy roads as on  
normal, dry pavement. Allow  
yourself this extra margin of room  
to avoid the necessity of making  
a rapid stop."

"If a skid starts, turn the steer-  
ing wheel in the direction the back  
end is skidding. When the car be-  
gins to straighten out, gently pump  
the brakes to halt the vehicle."

"Don't forget to carry skid  
chains. When signs indicate that  
chains are required, you must stop  
and put them on immediately."

## STRIKES & SPARES

BY JOE WILMAN  
**SQUARED  
SHOULDERS  
MAY DIP**

Willie the Worrier is concerned about dipping his right shoulder as he brings the ball forward to deliver it. He feels he should keep his shoulders level throughout his arm swing.

I told Willie that it was only natural for his right shoulder to dip a bit, because he had a 16-pound bowling ball hanging from it. As long as the dip isn't too pronounced, there's nothing to worry about. Sure, if it causes you to bounce the ball off the approach, the dip is something to worry about.

The main point to keep in mind concerning the shoulders is that they should remain squared to the target. Even if the right shoulder dips, it shouldn't be pulled back and offline. That would affect your accuracy. Look at the illustration to see how my shoulders are on line even though my right shoulder is dipping slightly.

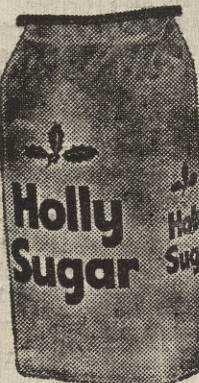

Some strong bowlers may not even experience the slight shoulder dip that worries Willie. But most average-sized men and women bowlers will find their right shoulder dipping a bit during the arm swing. Keep both shoulders and hips squared away to the target, however, and you'll still be in good position.

## DONNER DOINGS

By VIRGINIA O'BEAR

Seems as though everyone has the Christmas spirit and you can see your friends shopping at Gateway and Truckee and keeping the business at home. With so many beautiful displays of top name merchandise right here where we live, why not take advantage of it and help our fellowmen at Donner Lake, Soda Springs, Gateway and Truckee.

Bess Reid and her sister Lillian Garr are busy these days preparing for their flight to have a "Christmas in Hawaii." They are leaving on December 20 and will stay at Waikiki or Honolulu which is near the army base called Schofield Barracks. Bess's son Larry is stationed there and since he is unable to come home for the holidays, Bess and Lillian will celebrate with him there. Rex will stay home this time and keep the business going and the home fires burning. Larry is hoping his mother will get there in time to see him play in one of the last football games of the season. Larry was thrilled because he got on the team as quite a few players signed up and had to be chosen. He likes it in Hawaii and that makes army life more pleasant when you are stationed in a place for several years. Bess and Lillian will be flying home sometime right after New Year's Day.

A petite little newcomer has joined the residence of Dr. and Mrs. Robert Affeldt. She arrived at the Tahoe Forest Hospital Monday morning at 1:35 a. m. weighing in at six and a half pounds. She has been named Janna Marie and I can imagine how happy little brother Robby is to have a baby sister. I know the doctor is happy to have a daughter because when I talked with him he seemed to be so happy and excited. JoAnne will probably be home by the time you read this column with her brand new baby so we are all happy for them here at Donner Lake.

Mr. Ivan Wilson and son Douglas were recent San Francisco

visitors as Ivan just had to get away to see his granddaughter who was born the 8th of September. She is the daughter of Mr. and Mrs. James Silverman and they named her Denise. Mrs. Wilson managed an earlier trip to the city to see her granddaughter so did not go this time. Douglas Wilson is now attending Sacramento State College so Ivan's brother Jim is helping with the mail run from Truckee to Tahoe. Douglas is also working part time in the Hale Department Store in Sacramento.

Rufus Fields recently returned from a three week vacation spent

in Kansas City, Missouri. He traveled by train and visited relatives of his and Mrs. Fields. When I talked with Mrs. Fields this week, she said she stayed at home to keep their motel open and she has also been very busy with church activities and working on the coupons for the ladies auxiliary.

A special board meeting was held at the home of Mrs. Roy Slate Monday evening when members of the Ladies Auxiliary of the Donner Lake Volunteer Fire Department met to solve a problem. At the last regular meeting, members voted to go out of town via

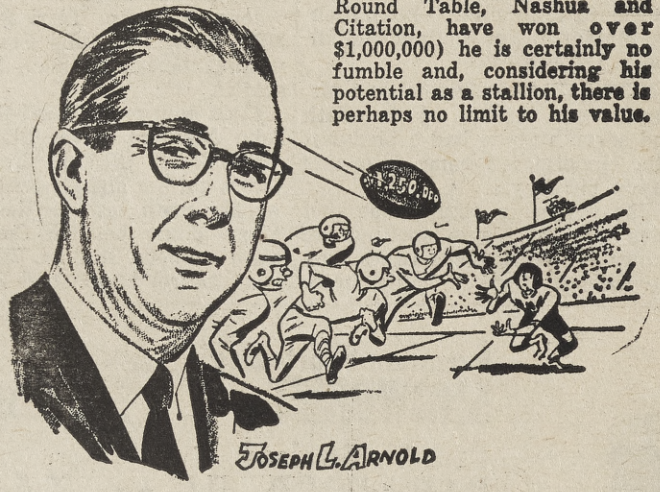

## OFF AND RUNNING by John I. Day

### The \$1,250,000 Catch

What kind of man spends \$1,250,000 for a race horse? Well, for one thing, he's the kind of man who, with such Princeton Tigers as Constable, Kaufman, LeVan, Pauk and others charging down on him, would elect to field a punt instead of calling for a fair catch. Joseph L. Arnold did both. He gambled on the kick while starring as quarterback with Washington and Lee in 1934, and he heads the syndicate that recently bought Ballyache for a million and a quarter.

Since his purchase, the beaten Kentucky Derby favorite made amends by winning the Preakness and the Jersey Derby plus a prep for the Preakness which were worth \$202,275 to his new owners. Arnold, 46-year-old Lexington, Kentucky, attorney, never had any regrets about choosing to run with the Princeton kick. "Everything I was doing that day was working out and the thought never entered my head to play it safe." As it turned out, Princeton recovered his fumble, went on to a touchdown and won over the Generals by 13 to 12.

While Ballyache may not win back his purchase price on the track, (only three horses, Round Table, Nashua and Citation, have won over \$1,000,000) he is certainly no fumble and, considering his potential as a stallion, there is perhaps no limit to his value.

bus for the December Christmas party. The hostesses for this party ran into many obstacles so therefore called a meeting to discuss what to do. At this time of year, many out of town restaurants are crowded with Christmas parties and the prices for dinners were quite high. Also the transportation situation could have proven quite a problem, as there would be insurance, etc. plus getting a driver. It was finally ironed out and arrangements were made to have the next meeting and dinner at the Alpine Riverside in Truckee. A delicious dinner will be served and a delightful Christmas party is being planned by hostesses Laura Horman, Helen Doolittle and Charlotte Harris. To be held exclusively in the dining room where it will be closed to the public. The time, 7:30, December 15.

**CHRISTIAN SCIENCE**  
Meets at Wyethia Clubhouse, Truckee.

Everyone Welcome  
Sunday School: 9:30 a. m.  
Morning Services: 11 a. m.  
The spiritual basis of true supply and abundance will be set forth at Christian Science services Sunday in the lesson-sermon on the subject "God the Preserver of Man."

Matthew's account of Christ Jesus' feeding of the five thousand men with five loaves and two fishes (Chap. 14) will be included in the scriptural selections.

One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (206:15): "In the scientific relation of God to man, we find that whatever blesses one blesses all, as Jesus showed with the loaves and the fishes.—Spirit, not matter, being the source of supply."

From James (1:17) the following will be read: "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning."

The club is sponsoring a ski school for grade school beginners which will be held every Tuesday at 3:30 p. m. at Pavoos Hill and will be open to all grade school children of the area, including Kings Beach, Tahoe City and Truckee. Through the cooperation of Wayne Poulsen of Squaw Valley the charge for the use of the lifts will be \$1—and the instruction will be free of charge.

## 19TH ANNIVERSARY OF CAP OBSERVED

ELLINGTON AIR FORCE BASE, Texas—Nearly two decades of national and community service by Civil Air Patrol were marked December 1 in all of the United States, the District of Columbia and Puerto Rico as 70,000 adult and teen-age civilian volunteer members celebrated CAP's 19th anniversary.

## NORTH TAHOE

By JUDGE HARRY CHARRISON

### WEATHER

Well, it seems that we are really going to have a early winter, with the storms moving in like they have been. The snow is really staying on the ground left from the last storm especially with the help of the "ole temperature" dropping at night. All this hasn't phased the tree cutters or those that transport them in the least, they are busy as can be. Christmas holidays are getting close, and the people must have their Christmas trees.

### FIRE

Mr. and Mrs. Jake Jacobson and their three boys, Jim, Richard and Bobby lost all of their personal belongings in a fire that totally destroyed the home that they were renting from "Chuck" Ellerd. Commendation must not only be paid to the North Tahoe Volunteer Fire Department but to the many local residents who contributed so much in the way of clothing to the Jacobsons. Our heartfelt thanks

to everyone. Mr. and Mrs. Henry Smith of the Siesta Pines donated the facilities of one of their cabins until the Jacobsons' trailer is finally repaired.

### RETIRING

A good friend, Jack Schindler, who has served with the forest service department so faithfully these many years is retiring in December. It has been my pleasure to know and work with Jack. He will be missed by his many friends and fellow workers. We wish him and his wife a very happy "retirement life." We understand that they are going to leave us and live in Santa Paula.

### BUSY DAYS

These are busy days for Carl Sorensen. His wife, Nina is recuperating from a visit in the hospital, so Carl is acting as nurse, cook and doing all the little things he can to make Nina comfortable and help her on the road to recovery.

### IN SAN FRANCISCO

Sam and Audrey Harrison are in San Francisco for a few days.

### BIRTHDAY

Our daughter, Marge, celebrated her birthday on December 6. Her

many friends wish her "birthday greetings" and we say many more happy days and years ahead.

### CAL-NEVA LODGE

We hear that this famous lodge will start remodeling, etc., soon. We are told that it is to be the show place of the north shore.

### HAPPENINGS AROUND

Mrs. Sam (Ruby) Faulkner left Tuesday for Washington, D. C. to visit with her mother. Her husband Sam will join her a few days before Christmas as they plan to spend the holidays with her folks.

## DONNER SUMMIT NEWS

By LLOYD W. GAY

### SUMMIT WEATHER

Snow and cold weather continued to dominate the summit area, to the delight of those who ski and those who depend upon skiers for their livelihood. Fifteen and one-half inches of new snow fell last Friday at Soda Springs to push the seasonal total over the 100 inch mark to reach 105 inches. This week also saw the season's coldest temperature at Soda Springs as the thermometer dropped to five degrees above zero on December 4. The maximum for the week was 41 degrees on December 1.

### COMMUNITY CONCERT

The Reno Community Concert Association presented Michael Rabin, violinist, on November 30, the first artist to appear in the 1960-61 series. Rabin, a 24 year old musical prodigy who has been a featured artist since the age of 13, was well received by the large crowd. Barbara Zorich, Marian Allyn, Bob Ziemer and Lloyd Gay attended from Soda Springs.

### CHRISTMAS PLAY

The children's Christmas play will be held under the auspices of the Community Club at the Donner Trail Elementary School on the evening of December 20, the day before school is out for the holidays, announced Club President Dick Reid. A pantomime, "Santa's Workshop" will be presented in which all the children will participate. Narrators for the pantomime will be Jane Allyn and Terry Besold. The club officers have arranged for Santa Claus to attend the party and are hoping that the play pleases him.

### TRUCKEE DE MOLAY

At last week's meeting of the Truckee Tahoe Chapter of the Or-

der of DeMolay, a number of summit area boys joined, reflecting the interest of Rex Anderson in this organization for young men. Among those joining were Carl Ballinger, Paul Young and Mike Cross. The installation of officers will be on December 11, when Terry Walker of Truckee will begin his term as master counselor for the coming year.

### OLYMPIC PAGEANTRY

On Sunday night, a large crowd gathered at the Soda Springs Hotel for the presentation of Olympic emblem pins to recognize the efforts of those skiers who helped bear the Olympic torch across Donner Pass prior to the opening of the Winter Olympic Games in Squaw Valley last February. One hundred and twelve pins were presented during the ceremony staged under the direction of Fran Couillard, who was responsible for obtaining the long awaited pins. Some of the torchbearers, such as Jerry Fraites of Vallejo and Pat and Jack Lambres of Placerville, came considerable distance to be present at the ceremony. One of the torch bearers unable to be present Donna Power, former Donner Trail School teacher who is now teaching in Japan, will receive her pin by mail.

### TAHOE TRUCKEE EDUCATION ASSOCIATION

The Christmas social of the Tahoe Truckee Education Association was held last week in the Nevada Room of the Nevada Club at Crystal Bay with Rex and Beth Anderson attending. The association members enjoyed dinner and dancing to the music of Paul Jones

and his band.

Their parents will be running the Snowflake restaurant at the Soda Springs ski hill. Steven and David Plant have returned to Marysville as their parents have completed the construction work in this area.

### SKI AREA NEWS

All of the areas reported the finest skiing conditions over the past weekend, with ample snow in excellent condition due to the cold weather following the fall of powder snow on Friday. Manager Max Williamson announced that the Soda Springs Ski Corporation has begun daily operation as of December 3. Dick Reid announced Placerville has opened for the past two weekends. Dick will be assisted by J. W. "Smitty" Smith and his son Ed who will operate the area's lifts. Several instructors will be added for the weekend operation. At this date, the Sugar Bowl will retain its scheduled opening date of December 16.

### DONNER TRAIL SKI RACE

Plans for the historical Donner Trail Memorial Ski Race are being formed by a project committee under the direction of Chairman Fran Couillard. The race, staged each year until Olympic activity forced cancellation, ran from the summit of Donner Pass to Emigrant Gap, a distance of 27 miles, and as many as 100 entries have competed. The committee tentatively made up of Max Williamson of Soda Springs Ski Corporation; Garth Dunning, ski coach at Chico State College; Lloyd Gay and Bob Ziemer of the Snow Lab; Norm Saylor of the Donner Ski Ranch; Edwin Aro of Soda Springs; Carol Quinn of Emigrant Gap; and Jack Lambres of Placerville; is doing the ground work required for staging the race. The race, remarkable both for the length of the course and for the interest generated by competitors, former racers, and spectators, closely follows the trail of the snow trapped Donner party and its rescuers over 100 years ago.

The Signal Hill ski area of the Sierra Club has opened under the supervision of John Phune of Moraga. The area is served by a 1,300 foot rope tow, the longest in the Sierra. ment course is required at least once for each senior patrolman. The eight hour winter first aid refresher course is required each year for active patrolmen. Pete Carnegie, the Sierra Club's new assistant patrol leader, will handle the registration at the lodge on Saturday morning, as ski patrolmen from all over the north central California region are expected to attend.

## ADDITIONAL DEPUTY FOR LAKE APPROVED

TAHOE CITY — The board of supervisors approved the hiring of an additional deputy for the sheriff's sub-office at Lake Tahoe, after studying a request from Sheriff William A. Scott.

Scott originally asked for three additional deputies. He stated the present staff of seven men and one woman was working overtime. The board turned down the request last week, indicating it felt the present staff was adequate.

Scott renewed his request again Tuesday, citing costs of operation and the need of 24 hour policing at the lake.

After considerable discussion, the supervisors allowed the sheriff one additional man. At the same time the county executive and the district attorney were requested to determine what steps were necessary to provide policing for the lake area under a special services district.

## FOUR INDUCTED AT SOROPTIMISTS MEET

TAHOE CITY—Four new members were inducted at the meeting of the Soroptimist Club held December 6 at Tahoe Inn. They are Virginia Cassela, Peggy Hulbert, Ruth Burris and Elizabeth Vance. Margaret Stolley transferred from the Burlingame Club.

The new members were presented with their pins and corsages by their sponsors. All were glad to see Sophia Levrá back from the hospital and feeling good.

Minutes from the directors' meeting were read and approved. Tally Daneri was appointed chairman for the southwest district convention to be held at Crystal Bay in October.

Mildred Mathias' team won the attendance contest which means Marie Henry's team will put on the party to be held at the last meeting in January.

The next meeting will be at Tahoe Inn December 13 at noon.

## OFFICIAL FIGURES ON ELECTION RELEASED

SACRAMENTO — (CNS) — Official voting figures, released by Secretary of State Frank M. Jordan, showed 88.32 per cent of eligible Californians cast ballots in the November 8 general election.

The total vote of 6,592,591 exceeded pre-election estimates and was approximately a million more than the vote in the 1956 presidential election when 86.5 per cent of the registered voters cast ballots.

Official figures show Republican candidate Richard Nixon defeated Democrat John Kennedy by 35,623 votes—3,259,722 to 3,224,099. The Prohibition candidate received 21,706 and the Socialist Labor write-in candidate received 1,050 votes.

Nixon received 5,419 votes and Kennedy received 4,633 votes in Nevada County. Prohibitionist total was 86 and the Socialist Labor total was 3 in the county. The total vote in the county was 10,311.

MIXED EMOTIONS might be the title of this photograph in which Frank Gaiennie, Truckee district manager for Sierra Pacific Power Co. gives Frank Giovannoni, Sierra Pacific line foreman, the championship trophy Giovannoni won in the power company's golf club tournament. The mixed emotions for Gaiennie are because he coached Giovannoni, who learned so well that he beat out Gaiennie for the championship in a hard-fought 32 hole match.
